

## **David Lecoque, Alliance for Rural Electrification (ARE)**

David Lecoque is the CEO of the Alliance for Rural Electrification (ARE). ARE is the global business association for the rural electrification sector, delivering clean energy access across Africa, Asia and Latin America. David and his team provide business facilitation services to ARE's members and advise governments on how to ensure access to affordable, reliable and sustainable energy. Prior to joining ARE, David practised energy and environment law at top-tier EU law firms, focusing on all aspects of renewable energy regulation and project development. David holds an LL.M in European Law from the College of Europe and a Master of Laws from the Free University of Brussels.

## **Silvia Piana, Enel Green Power (EGP)**

Silvia Piana is Head of Regulatory Affairs for Africa, Asia and Oceania at Enel Green Power (EGP). Part of the Enel Group, EGP is a multinational company that generates energy from renewable sources across five continents. In her current position, Silvia focuses on enabling regulatory frameworks to increase utility-scale penetration of renewable energy, supporting her company in its sustainable energy transition process through greater electrification, innovation, digitalisation and flexibility. Silvia holds post-graduate degrees in International Law and Business Development.

**Marit Brommer, International Geothermal Association (IGA)**

Marit Brommer is the Executive Director of the International Geothermal Association (IGA). The IGA is a global platform representing the geothermal sector, serving 5 500 members through 35 affiliated country members. At IGA, Marit works to create partnerships, engages in strategic initiatives on industry standards and sustainability, with a focus on public outreach and geothermal project financing. Prior to joining IGA in 2017, Marit worked in extractive industries for fifteen years. A trained geologist, Marit holds a MSc in Geology from Free University Amsterdam and a PhD in Applied Geophysics from Delft University of Technology.

**Rabia Ferroukhi, International Renewable Energy Agency (IRENA)**

Rabia Ferroukhi is Director of the Knowledge, Policy and Finance Centre at IRENA. She has worked at IRENA since 2011 and has over 25 years of experience in the fields of energy, development and environment. Previously, she headed IRENA's Policy Unit, which works on a range of renewable energy policy and regulatory issues including market design, target-setting, socioeconomic benefits and integrated resource management. Rabia has worked in both the public and private sectors, including with governments in the Middle East and North Africa, energy companies in the Mediterranean and Gulf regions as well as international institutions. Rabia holds an MSc in Applied Economics and a PhD in Economics from the American University in Washington, DC.

**Monica Oliphant, International Solar Energy Society (ISES)**

Monica Oliphant is a former President of the International Solar Energy Society (ISES). She has worked in renewable energy for over 40 years in the areas of solar, wind and energy efficiency, and has served on various government committees in Australia. Monica spent 18 years as a Research Scientist at the Electricity Trust of South Australia (ETSA), where she undertook South Australia's first large-scale wind survey and worked to both improve energy efficiency and determine the impact of solar water heating and PV on energy use. Monica is also currently an Adjunct Associate Professor at the University of South Australia, from which she received an Honorary Doctorate in 2018, and runs her own consultancy.

### **Johannes P. Bøggild, Ørsted**

Johannes Bøggild is the Head of Global Public Affairs at Ørsted. Formerly known as DONG, Ørsted has transformed from predominantly being an oil, coal and gas company to the world's largest developer of offshore wind power. Ørsted holds a vision of a world entirely powered by green energy and is active in different renewable technologies including solar, hydrogen, power-to-X, storage and onshore wind. Johannes has 20 years of combined experience in political communication and campaigning. He holds a Bachelor of Journalism from the Danish School of Journalism and a Master of Political Science from the University of Copenhagen.
